

CQ Picto-word Entry

Select one word from your CQ Lexicon and create a Picto-word.

A Picto-word is drawing / illustration that actually defines a word through graphic example. One way to do a Picto-word might be to take the word “raccoon” and, using the “oo” from the word draw the raccoon’s eyes and blend the rest of the word into the body. Use the examples shown in class for more inspiration.

Use your imagination. Color is encouraged, but good line drawings are equally effective. You might incorporate visual puns, or other forms of appropriate humor.
